

Trail Access

The University of Washington Bothell and Cascadia Community College will connect the Sammamish River Trail, along SR 522, to the North Creek Trail, along North Creek east of I-405. The Sammamish River Trail provides regional connections for bicyclists, pedestrians, and in some places equestrians. The Trail extends west along Lake Washington through Kenmore, Lake Forest Park, and the University of Washington Seattle campus to Lake Union, and south along the Sammamish Slough to Redmond, Marymoor Park, and Lake Sammamish. Only a short segment of the North Creek Trail currently exists, but eventually it will connect the Sammamish River Trail to Canyon Park and north.
