Mission:
To empower and support our diverse student population and promote multicultural diversity and educate students about the resources available to help aid their academic and professional success.

Goals and Objectives of the conference:

- Leadership development
- Ethnic, racial, and cultural sensitivity
- Academic success
- Health and Wellness
- Identity development
- Strategies and skills for promoting social justice
- Intercultural communication and understanding
- Women Empowerment
- To encourage Intercultural and Cross-Cultural Communication

The leadership conference will be collaboration between leadership throughout campus as well as off campus. The collaborations on campus thus far include: CEB, ASUWB, Rec and Wellness, HEROS, Diversity Programmers, Diversity and Outreach Recruiters, La Voz De Ella, Latino Student Union, Emerging for Education Excellence, DECA, and DSSA.

With the help from SAF, this will allow students to have the opportunity to participate in two workshop sessions. The workshops include: Leadership development, resume building, financial aid services, International Rescue Committee of Seattle, how to apply for jobs, community building activities, Digital Storytelling by Three Chairs, Nursing 101, Session by Student Life, Women's empowerment, Strategies and skills for promoting social justice, health and wellness, and many more that are currently being developed by student leadership.

Along with educating students about the available resources, we also want to motivate current students to take advantage of the resources on campus for accessing higher education and increase diversity awareness.

During lunch, keynote speaker Sheila Edwards Lange, the Vice President of Minority Affairs at the University of Washington, will be presenting about social justice, diversity, and future opportunities for refugee, international, House Bill 1079, and domestic students in higher education. We will end our conference by having a panel consisting of refugee, international, and domestic University of Washington Bothell students to answer any questions that participating students may have acquired throughout the conference. To finish the day with a little fun, our goal is to bring two Sounders players to our new sports field complex to compete in a soccer game with all student participants.

Need for this Program/Service
In 200 words or less, please do the following:
--Describe the need for this program or service.
--If possible, include any data that might support your proposal (i.e. surveys indicating a need for your initiative).

Last year, there were many organized discussions around the topic of diversity within the student body with the Chancellor included. Students voiced the need for support and offered suggestions for ways that we could improve the climate on our campus. Many of the highlighted suggestions were around collaboration, unity, leadership, cultural awareness, support for underrepresented student populations, cross-cultural communication, women empowerment and diversity.

This conference is unique because this is student initiated. The conference provides the space for the workshop sessions and the opportunity for the student leaders to fill these sessions with what they feel is for the betterment of the student body and future leaders within the institution. This conference gives the students the full ownership of this project and the opportunity to provide what the students want.

Following the conference, there will be a short ‘student experience survey’ to help evaluate the conference, and to assess student awareness/experience using the web of resources on campus and what suggestions they have on improving the student experience at UW-Bothell.

Estimate number of students that will benefit from your proposed program/service
In 200 words or less, please do the following:
--Indicate what the benefits of your proposed program for students will be.
--Estimate how many currently enrolled students will likely benefit from your proposed service or program.
--Estimate the number of any other individuals (and indicate their affiliation) that might benefit from this service or program.

This conference is open to the entire student body at the University of Washington Bothell.

How do you plan to assess the program or service?
How do you plan to track the effects of this program or service? For example, how would you track how successful it was and what you could change in the future?

Following the conference, there will be a short ‘student experience survey’ to help evaluate the conference, and to assess student awareness/experience using the web of resources on campus and what suggestions they have on improving the student experience at UW-Bothell.

Additional Information
If needed, please include any other information you feel is relevant to your request. (There is no character limit on this field.)
