Executive Summary of Your Proposal
Please provide a concise overview of the program, activity, or service for which you seek funding.

This proposal is a request to continue support for our Child Care Assistance Program (CCAP). Student-parents are faced with many obstacles while working towards their degree. One major obstacle is the ability to find reliable childcare and then find the necessary resources to pay for childcare. The Services and Activities Fee has helped assist high-need student-parents with the cost of childcare.

Last year, 2010-2011, the CCAP funds helped 10 students with childcare costs. This year, 2011-2012, the program assisted 17 students with the increased funding that was provided, a 58% increase from the previous year.

How do you plan to assess the program or service?
How do you plan to track the effects of this program or service?
For example, how would track how the event/program/service went? How would you track how successful it was and what you could change in the future?

At the end of each quarter, the student must provide receipts to verify the costs of their childcare. By continually assessing awards to make sure they were distributed and used appropriately throughout the academic year, we ensure the integrity, accurateness, and effectiveness of the program. Awards for subsequent quarters are not released until verification is approved.

Estimate number of students that will benefit from your proposed program/service
In 150 words or less, estimate how many currently enrolled students will likely benefit from your proposed service or program. Please estimate the number of other individuals (and indicate their affiliation) that might benefit from this service or program. Finally, please indicate other sources of financial support.

This year we received 20 applications for the Childcare Assistance Program, which is down from last year's number of applications. However, we were able to fund 17 of those students. As whole, the campus community will benefit from the involvement of our student-parents. Their perspectives and life experiences can be invaluable contributions to our classrooms, departments, and overall campus settings.

Benefits to Participants
In 150 words or less, please describe the benefits that participants are likely to gain by attending or participating in this program or service.

For some students, childcare can be the difference in a student's decision to attend or not attend college. The ability to pay for childcare costs are worrisome for most students, thus, the CCAP fund provides the student with some ability to offset the
cost of childcare. The struggling economy has most students reluctant to borrow even student loans. So 40% in childcare assistance may make a difference in a student's ability to continue and complete their education in a timely manner.

Additional Information
Please include any other information you feel is relevant to your request. (There is no character limit on this field.)
The allocated funds are redistributed 100% to our students. The costs of staffing, printing, emailing, advertising are absorbed fully by the Financial Aid Office/Enrollment Services.
