**INSITU**
insitu.com

Insitu is an industry-leading provider of information for superior decision making. We create and support unmanned air systems and software technology that deliver end-to-end solutions for collecting, processing and understanding sensor data. Our diverse set of customers interpret that data to make critical decisions that ultimately support and protect our military, effectively fight wildfires, inspect oil and gas lines, apprehend drug traffickers, monitor crops, aid in search and rescue, provide disaster relief and more. These applications let us bring our purpose to life — to pioneer and innovate in all that we do so that we positively impact people’s lives and change the course of history. In all that we do and all that we aspire to do, our Vision and Mission guide us while our cultural pillars – Pioneer, Perform, Unite, Care – define our culture and inform our decisions as we strive to achieve our Mission.

**Positions Available:** Internship

**Technical Majors of Interest:** Applied Computing, Computer Engineering (BSCE), Computer Science and Software Engineering (BA, MS), Cyber Security Engineering (MS), Electrical Engineering (BS, MS), Mechanical Engineering (BS)

Who We Are

Clearwater Analytics is an innovative financial tech company headquartered in Boise, ID. We are adaptive, self-organizing and hard-working, yet we also know to call it a day and enjoy our friends, families and the amenities Boise has to offer. We value constant improvement in our employees, who learn new skills and expand their horizons. Dedicated employees are the reason Clearwater has become a leader in the financial services industry. Our employees come from a variety of educational and employment backgrounds, but they are committed to adding value and solving challenges in new and creative ways.

What We Do

Clearwater offers web-based investment accounting and reporting software that automates accounting compliance, performance and risk reporting for corporations, investment managers, insurers, governments and other financial institutional investors. We have more than 30 software development teams working together in a microservices architecture and Agile environment.

Our Product

Clearwater aggregates our client’s investment data, validates and reconciles that data, and makes it easy to analyze and report on. All of this is done on a daily basis. Our clients have up-to-date, accurate portfolio data combined with customizable reporting, policy compliance monitoring, performance measurement, and risk analytics. All Clearwater clients have a dedicated, world-class team of market experts to guide them through implementation, offer unlimited training, and provide ongoing support.
Lutron Electronics designs and manufactures energy-saving light controls and automated window treatments for residential and commercial applications. Its innovative, intuitive products and software can be used to control everything from a single light, to every light, shade and even stand-by power in a home or commercial building. Lutron estimates that the installed base of its products saves the nation nearly 10 billion kWh of electricity, or approximately $1 billion in utility costs per year.

Positions Available: Full-time
Technical Majors of Interest: Electrical Engineering (BS, MS), Mechanical Engineering (BS)

Contact: Wendy Keiter, recruiting@lutron.com

Patriot Fire Protection, Inc. has been providing the highest quality fire protection systems to the Northwest for over 25 years.
