Our Bachelor of Arts in Health Studies degree will provide students with the knowledge and skills to improve the health of individuals and communities. As part of the program, students will study and apply a range of health concepts. Areas of study include the social and biological predictors of health, policy analysis, health education and community engagement strategies, and global health.

Students graduating from this program will be well-positioned for careers in public health, global health, health management and administration, non-profit services, community organizing, mental health services, health care outreach, and advanced study in public health, medicine, social work, and other health professions.
