UW Bothell offers two degrees in Physics: Bachelor of Science in Physics (BS) and Bachelor of Arts in Physics (BA).

The Bachelor of Science in Physics (BS) allows students to pursue a rigorous curriculum focused on the study of the universe from the largest galaxies to the smallest subatomic particles. The degree includes the traditional areas of physics and has four possible (non-transcripted) concentrations: general physics, astrophysics, biophysics, and condensed matter.

The Bachelor of Arts in Physics (BA) combines a rigorous curriculum covering the foundations of physics with a career track for students who want to become middle or high school teachers.
