COURSE EVALUATIONS

Please see a transfer advisor at UW Bothell to verify science courses.

The Bachelor of Science in Environmental Science will be Conservation & Restoration Science (CRS) starting in 2020. This major will prepare students to address environmental challenges facing the world today. Students develop the depth of scientific understanding, interdisciplinary perspectives, and creative problem-solving skills needed to design and bring about solutions to these problems. CRS links the study of conserving and maintaining ecological systems and their elements with the recovery of damaged ecosystems.
