YOUR POSSIBILITIES ARE BOUNDLESS.
WE INVITE YOU TO LEARN MORE...
OUR MISSION AT UW BOTHELL is to make an exceptional college education accessible to more students — people just like you. No matter your background or future aspirations, if you are a strong, committed student, we want to help make your dream of a UW degree possible.

We are a student-centered, right-sized campus with 6,000 students, more than 350 faculty, five schools, more than 50 undergraduate and master’s degree programs, and direct access to the big-school resources of the tri-campus University of Washington.

Just a mile from downtown Bothell, the campus is a convenient commute from Seattle and Bellevue to the south and from Everett to the north. In the heart of the Eastside’s tech corridor, the campus is also home to a wetlands preserve that students and faculty use as a living laboratory.

See for yourself why UW Bothell has become a top destination for ambitious students from all over the state and the world.
YOUR UW CONNECTIONS

UW BOTHELL IS THE RIGHT FIT for many students because it is a mid-sized university with a small-community feel — plus all the opportunities and resources of a large university.

One of three University of Washington campuses (along with Seattle and Tacoma), UW Bothell places particular value on the relationships you can build with your professors and staff. We take pride in being a place where people are dedicated to helping you be and do your best. A place where people want to know your name and want you to make the most of your college experience.

STUDENTS AT ALL THREE UW CAMPUSES receive the same University of Washington degree.

YOU CAN PARTICIPATE in undergraduate research projects on any campus, not to mention numerous off-site locations.

UW BOTHELL STUDENTS have cross-campus enrollment privileges. You can take up to 15 credits per year at UW Seattle or UW Tacoma — or even earn a minor at the other campuses.

ALL 16 LIBRARIES across the University are available for studying, research and other resources.

UW STUDY ABROAD opportunities include programs in countries on six continents.

THE CAMPUS BOASTS more than 90 clubs and activities, in addition to opportunities to participate in the Husky Marching Band, UW Cheer & Dance, ROTC and club sports in Seattle.

BE IN THE “DAWG PACK” at all football and men’s basketball games at UW Seattle. You can also get tickets to all the other sports games where you can cheer on the Huskies.
Meet

CHRIS SINGSON
Class of 2013, B.A. in Community Psychology
Currently Design Researcher at Microsoft

Chris Singson transferred to UW Bothell from Cascadia College and received his UW degree in Community Psychology. He later completed the User-Centered Design Certificate in engineering at UW’s Seattle campus. Passionate about impactful research and inclusive design, he believes good user experiences (UX) can improve our lives.

“UW Bothell and the Community Psychology major provided a solid foundation in understanding people and critical thinking, which is important in the work I do as a design researcher.

“My background in psychology allows me to connect with each participant, as well as the program managers and designers who will use this feedback.”
THREE DISTINCTIVE EDUCATIONAL APPROACHES serve as a defining focus for the student-centered academic programs at UW Bothell: connected learning, community engagement and cross-disciplinarity.

1. UW BOTHELL IS KNOWN FOR ENGAGING STUDENTS through “connected learning” — that is, classes, team projects and research in which you connect the dots between what you learn or create in school and what is happening in the broader world.

2. ONE OF THE WAYS YOU MAKE CONNECTIONS as a student is by engaging with businesses, nonprofits and other agencies and organizations in the Puget Sound region and around the world. With assistance from faculty and staff, students at UW Bothell work with hundreds of community partners to investigate research questions, pursue capstone projects and participate in internships.

3. STUDENTS AT UW BOTHELL ARE INVOLVED in many programs and projects that cross disciplines — ideas, research and creative activities that bridge traditional academic boundaries, such as business and health studies or biology and fine arts. Not only are these experiences more powerful for students, but this kind of academic work also presents pressing issues and problem-solving tools in a way that prepares students to meet the complex challenges they will face after graduation.

START WITH THE DISCOVERY CORE

As a first-year student, you begin your journey at UW Bothell with a series of courses designed to orient you to UW Bothell’s culture, improve your academic skills and connect you with other first-year students. The courses also serve as an introduction to the many and often interrelated fields of study you can pursue as a college student.

Meet

PIERRE D. MOURAD
Professor
Engineering and Mathematics, UW Bothell
School of STEM
Neurological Surgery, UW Medicine

Pierre Mourad is a professor specializing in engineering and mathematics at UW Bothell and in neurological surgery at the UW in Seattle. He received UW Bothell’s 2018 Distinguished Research, Scholarship and Creative Activity Award for significant contributions to his fields of expertise through journal articles, conference presentations, patents and external grants, including funding for his biomedical research on how ultrasound interacts with the brain. He is also known for involving students in his research.

“Experiential education — where projects compel the students to engage with their education, choose a degree, and go forth in the world and do good — that’s what excites me about UW Bothell. Such opportunities are rare in my experience elsewhere but common here.

“We’re already doing it. We can do it, I believe, even better. And I’m proud to have a role in providing that kind of education at UW Bothell.”
MAKE YOUR OWN FUTURE

UW BOTHELL’S MISSION IS TO

- make a four-year degree more accessible and achievable for more students,
- provide an excellent UW educational experience that can transform individual lives, and
- prepare our students to succeed after graduation in life, work and the community.

There are more than 25,000 UW Bothell alumni, and 90 percent of them live and work in the state of Washington.

Check out what the Office of Career Services can do for you: uwb.edu/careers
DID YOU KNOW?

MORE THAN 60% of UW Bothell undergraduate students (and more than 50% of graduate students) graduate debt free.

UW BOTHELL RANKS NO. 1 IN THE NATION FOR PUBLIC COLLEGES that provide students the greatest return on their investment. (CNBC Make It 2020)

CAREER SERVICES staff works with nearly 200 regional and international employers to help you make work connections.

CAREER SERVICES ARE AVAILABLE TO YOU AS A STUDENT from your first year through your graduation. New alumni can also get assistance during the first two years after graduation.

Expert staff members are on hand to offer personalized advice on career preparation and job searches, resumes and portfolios, interviewing, and networking.
Where are alumni working right now?

- EXPEDIA
- BOEING
- ENTERPRISE
- T-MOBILE
- ALASKA AIRLINES
- TECHTRONIC INDUSTRIES
- WASHINGTON STATE ATTORNEY GENERAL'S OFFICE
- CITY OF SEATTLE
- FACEBOOK
Meet

ELEANOR WORT

Class of 2015, B.A. in Applied Computing
Currently Project Management Consultant at Microsoft Consulting Services

Eleanor Wort worked on campus as an orientation leader then became a student assistant lead in the Office of Student Life. Since graduation, she has been working at Microsoft, first as a project management consultant and now as a program manager for Azure’s Customer Advisory Team.

“My first few weeks at UW Bothell, I felt like I was at home. The sense of community I felt with the professors and other students was something I hadn’t experienced at other institutions, mostly due to smaller class sizes.

“I was able to establish connections that helped propel me to a career at Microsoft. I met my current mentor through a professor at UW Bothell, and I am forever grateful for the relationships that formed during my time on campus.

“UW Bothell not only connects you to great experiences, but faculty teach you how to market those experiences to companies that want to hire you.

“I would not be where I am today in my career if it were not for the University of Washington Bothell!”

JOIN OUR COMMUNITY

CAMPUS SNAPSHOT

UW Bothell has nearly 6,000 undergraduate and graduate students.

About 1/2 of incoming students each year are transfers from community colleges.

UW Bothell students come from more than 20 states and more than 35 countries.

About 1/3 of all students are eligible for Federal Pell Grants.

40% of incoming first-year students and 43% of incoming transfer students will be first in their families to earn a four-year degree.

More than 350 students at UW Bothell are eligible for veterans benefits.

Ready to see yourself at UW Bothell? Sign up for a campus tour: uwb.edu/admissions/visit
YOU CAN MAKE A DIFFERENCE

UW BOTHELL STUDENTS don’t wait until after graduation to work on making the world a better place. With the support of faculty, staff and your peers, you will be challenged to take information you learn in the classroom and put it into action.

The UW mission to work “together undaunted for a world of good” requires a commitment by everyone in the UW Bothell community — and the University’s many partners off campus — to address the complex and systemic challenges we face in Washington state and around the world.
GET INVOLVED

COMMUNITY-BASED LEARNING AND RESEARCH (CBLR) is an educational experience in which you participate in an activity such as direct service, research, creative process, advocacy or consulting with a community entity.

At UW Bothell, you can participate in this kind of intense engagement both inside and outside the classroom. During an eye-opening two-week trip to Guatemala, a group of UW Bothell students recently investigated the challenges of providing health care in a country with few resources. Closer to campus, students in mechanical engineering designed and constructed a scalable solar array to help a local farm promote environmentally responsible practices for sustainable farming.

Here are some other recent CBLR courses:

• Bothell Youth Court Task Force
• Business Consulting
• Education & Society
• Health Studies Field Work
• Intro to Sustainable Practice
• K-12 Computing Education
• STEM Mythbusters
• Performing Arts Technique: Improvisation: Applied Theatre
• Population Health in Community Practice
• The Citizen Engineer

Meet SABIRA KAHERMAN
Class of 2019, Biology major

Sabira Kaherman is from Xinjiang, China, and transferred to UW Bothell. As a student here, she is a member of the International Student Advisory Board, which aims to improve the international student experience. She is also a health scholar at Swedish Hospital and volunteers at the UW Medical Center with the goal of going to medical school.

“Before coming to UW Bothell, I never met someone from Cambodia or Tanzania or Albania, but that’s what makes college great.

“Constantly being around different types of people has challenged me and allowed me to grow as a person. Studying and making friends with people from different cultures has given me wonderful experiences not only in class, but also in my daily life.”

We partner with a range of organizations to offer CBLR experiences that support our commitment to diversity and equity, including:

• 21 Acres
• Bloodworks Northwest
• Boeing
• Burke Museum of Natural History and Culture
• City of Bothell
• East African Community Services
• Friends of North Creek Forest
• Henry M. Jackson High School
• King County Prosecuting Attorney
• Latino Education Training Institute
• Northshore School District
• Northwest EcoBuilding Guild
• Northwest Film Forum
• NW Network of Bi, Trans, Lesbian and Gay Survivors of Abuse
• Pacific Science Center
• Providence Institute for a Healthier Community
• Real Change Street Newspaper
• Seattle Children’s Hospital, Alyssa Burnett Adult Life Center
COME HERE, GO THERE, LEARN EVERYWHERE

AN EDUCATION THAT COVERS THE GLOBE

UW Bothell is home to more than 500 international undergraduate students, offers students study abroad programs on six continents and has a series of hybrid courses that are taken partially online with students in other countries.

And with a network of faculty, staff and alumni working across the world, a UW Bothell education truly spans the globe.
VIRTUAL CONNECTIONS

NOT ALL GLOBAL EXPERIENCES REQUIRE TRAVEL. In our Collaborative Online International Learning (COIL) classes, you can connect virtually with students from other universities around the world. Recent courses include:

- **SOCIAL MEDIA AND GLOBAL CHANGE** (with Central University of Tibetan Studies in India)
- **GROWTH AND DEVELOPMENT THROUGH THE LIFE SPAN** (with Swaziland Christian University in Swaziland)
- **JAPANESE AND U.S. POPULAR CULTURE** (with Meiji University in Japan)
- **FEATURE WRITING FOR PRINT MEDIA** (with Moscow State University in Russia)
- **GLOBAL LABOR MARKETS** (with Universidad de Celaya in Mexico)
- **WOMEN’S GLOBAL HEALTH AND HUMAN RIGHTS** (with Al Quds University in the West Bank)
- **THE GREAT DEBATES AROUND THE WORLD** (with Future University in Egypt)
- **MYTH OR REALITY: BIOLOGICAL SCIENCE AND MEDICINE IN THE MOVIES** (with University of Rostock in Germany)

Meet

**URSULA VALDEZ**

Lecturer
Biography (Ecology and Conservation), School of Interdisciplinary Arts & Sciences

Ursula Valdez received her B.S. in Biology at the Universidad Nacional Agraria La Molina in Lima, Peru, and then pursued an M.S. in Zoology and Animal Behavior at North Carolina State University. Her Ph.D. in Biology (Ecology and Conservation) is from the University of Washington.

“Many students have the opportunity to travel and study abroad, and that is fantastic. But every student should have the opportunity to learn about the world even if from a classroom. That is the purpose of COIL. We bring the world to the students — the real issues and stories — and part of those stories are told by students and instructors from across the world.

“The rest of the world is no longer ‘over there’ and about ‘those people.’ Open communication in an educational environment facilitated by COIL brings the world here and makes students aware that it’s all about ‘us humans.’”
STUDY ABROAD OPPORTUNITIES

THE UW OFFERS 500 PROGRAMS IN 85 COUNTRIES that are open to students from all three UW campuses — Bothell, Seattle and Tacoma. Recent opportunities include:

**ITALY, FRANCE AND SWITZERLAND**
Explorations of Science, Art and Architecture in Europe

**GUATEMALA**
Health Services Delivery in Resource-Poor Settings

**ETHIOPIA**
Through the Eyes of the Ethiopians: Journey Beyond Culture

**TANZANIA**
Critical Perspectives on Ecotourism

**MEXICO**
Dance, Ritual and Embodiment Practices in Oaxaca

**BRAZIL**
Afro Cultures of Brazil

**SOUTH AFRICA**
Reconciliation via Digital Storytelling
UW Bothell students come from many different cultures and ethnic backgrounds — and approximately 10 percent of the student population is also “international.” The Top 10 places of origin for international students are China, Hong Kong, Taiwan, Vietnam, India, Indonesia, South Korea, Saudi Arabia, Japan and Thailand.

The International Student Advisory Board and a team of International Student Ambassadors support the students who come to study here from more than 35 countries. The goal? Making our international students feel like UW Bothell is their home away from home.

Meet

YASMIN GUZMAN
Class of 2020, Health Studies major

Yasmin Guzman is from the city of Bothell, graduated from Inglemoor High School in Kenmore and is the first in her family to attend college. She is a College Bound scholar and has benefited from the Husky Promise, which covers the full tuition at UW Bothell. She is a member of the Latinx Student Union, a campus tour guide for prospective students and an undergraduate researcher.

“I went to France and Spain for the study abroad program Americans in Europe: Exile and Belonging, where we followed the path many artists, revolutionaries, exiles and travelers took as they created their art. Staying at St Christopher’s Inn Gare du Nord where Langston Hughes stayed when he first arrived to Paris — or having class in the 14th century Palacio Conde Luna in León, Spain — gave me a greater appreciation for what I was learning.

“As a first-generation student, I never imagined myself studying abroad but this was truly an experience never to be forgotten.”
SNEAK PEEK INTO STUDENT LIFE

THERE ARE ALMOST 100 STUDENT ORGANIZATIONS ON CAMPUS — and more are created each year, such as Dine and Dialogue, which was launched recently by the UW Bothell Social Justice Organizers.

Built in 2015, the Activities and Recreation Center (ARC) is a hub of student activities. The three-story building features club workshops, student offices, event space, conference rooms, a fitness center, a gaming alcove and a gear rental station. The ARC is open to all students, and while some classes charge a fee, the facilities and most services are available at no extra charge.

Come to the ARC to work out with friends, design your club’s next project, play Xbox — or borrow (at no cost) hammocks, tents, hiking gear, snow shoes and more for your next outdoor adventure!

Right outside the ARC is where you will find a rotating selection of food trucks that come to UW Bothell every day. Other food options on campus include two coffee shops and a sandwich shop.

See the map on page 30 for more entertainment, shopping and dining options around Bothell and the Seattle area.

Discover the opportunities at UW Bothell. Take a tour today!

uwb.edu/admissions/visit
CAMPUS HOUSING

UW Bothell offers housing for approximately 300 students in affordable, fully furnished apartments that are conveniently located on or near campus. Priority is given to first-year students whose homes are farthest from campus.

Meet

ZACH NELSON

Class of 2020, Media and Communications major

Zach Nelson is currently a third-year student, president of the tri-campus Blockchain Society and treasurer for student government, the Associated Students of the University of Washington Bothell. Previously as a sophomore, he worked in Advancement & External Relations as a student employee writing stories about UW Bothell’s students and faculty. He was also elected to serve on the campus Health and Safety Committee.

“One thing that really stands out to me about UW Bothell is the innovative mindset of the students here — we have an engaged community of students. In the time I have been on campus, I have seen more clubs being invented than ever before, and then subsequently, seen those clubs put on a plethora of events.

“Being at UW Bothell feels like being an explorer, and like most explorers, we get to make our own adventures.”
IN SUPPORT OF YOUR EDUCATIONAL JOURNEY

GOING TO COLLEGE MAY BE A SINGULAR EXPERIENCE, but it is not one you experience on your own.

At UW Bothell, faculty, staff and fellow students want to assist you so that you can do, and be, your best.

To support your success, we offer a wide variety of resources and services that are available free of charge as part of your student tuition and fees. Whether you need to meet with a math or writing tutor, want to make a video or build a website, need help with learning challenges or are looking for future career advice, we are here to help!
SAMPLE RESOURCES

ACADEMIC ADVISING:
As a student, you receive academic support from advisers who can help you plan your classes, schedule meetings with professors, discuss your future career goals and much more.

QUANTITATIVE SKILLS CENTER:
Need help in your math class? The QSC’s student tutors offer free drop-in and online assistance to model problem-solving processes and help you work through math-related exercises.

WRITING & COMMUNICATION CENTER:
The goal of WCC peer tutors is to help you become a stronger, more confident writer and communicator. They support students of all abilities at any stage of the reading, writing or presentation process.

INFORMATION TECHNOLOGY:
Not only will IT staff help you with your computer needs, but you can also borrow (for free) cameras, audio equipment, lighting kits, projectors and other gear.

STUDENT DIVERSITY CENTER:
This center serves as a hub for coordinating student diversity, equity and inclusion efforts across campus and building community. The center also provides space for student clubs and organizations.

CENTER FOR INTERNATIONAL EDUCATION:
This team supports and advocates for international students, working closely with the academic advisers and all academic and support departments to help you navigate your education in the United States.

DISABILITY RESOURCES FOR STUDENTS:
The DRS staff works to fulfill the University’s mission to include and support students with disabilities as independent, responsible and productive members of the campus community.

VETERANS SERVICES:
UW Bothell welcomes those who are serving or have served our country. Our Veterans Services team will help you access your veterans benefits and support you in your transition to student life.

CARE TEAM:
This dedicated team is on campus to assist students who may need emotional, familial or medical support.
THE ADMISSIONS AND FINANCIAL AID OFFICES are focused on providing opportunities to students whose academic achievements, involvement in their communities and personal qualities demonstrate an ability to thrive in our academic environment.

We are committed to making a UW degree financially accessible for all qualified students. We provide a variety of grants, scholarships and loans to assist students in paying for their education at UW Bothell. If you are admitted, we will work with you to try to make it affordable for you to enroll.

DID YOU KNOW?

In the 2018-19 school year, 61 percent of undergraduate students graduated debt free.

TO LEARN MORE  ► Contact the Admissions Office at (425) 352-5000 or uwinfo@uw.edu to arrange to speak with an admissions adviser.
FIRST-YEAR APPLICANTS

First-year admission to UW Bothell is based upon a holistic review of your application. We believe that your potential to succeed cannot be determined solely by GPA and test scores. As such, we encourage you to put thought and effort into every part of your application for admission.

The following factors are heavily considered in the first-year admissions process:

- Your academic achievements in high school
- The strength of your high school curriculum (e.g. AP, IB, Running Start or honors coursework)
- Your personal statement in the admissions application
- Involvement and leadership in your community (including leadership or involvement in your family, church, school or community)
- SAT or ACT test scores

Note: Students who spent more than half of their education (generally more than seven years) outside the United States will need to demonstrate English proficiency.

All first-year candidates for admission should apply to UW Bothell using the Coalition for College Application.

First-Year Deadline for Autumn Quarter:

**January 15**

TRANSFER APPLICANTS

The vast majority of transfer students enrolling at UW Bothell are admitted directly to their major of choice. As a transfer applicant, you must review the minimum prerequisite requirements for admission to your intended major. You must also successfully complete the minimum admission requirements of intermediate algebra and world language.

The following factors are heavily considered in the transfer admissions process:

- Prerequisite coursework
- Academic performance in the college(s) from which you are transferring (including grade trends)
- Your personal statement showing interest in your intended major and field of study as well as your life and professional experiences (including leadership or involvement in your family, church, place of employment, school or community).

Note: Students who spent more than half of their education (generally more than seven years) outside the United States will need to demonstrate English proficiency.

Transfer students submit one application that is reviewed for admission to UW Bothell and to their intended major.

Transfer Deadlines:

- **Autumn Quarter**
  - May 1
- **Winter Quarter**
  - October 1
- **Spring Quarter**
  - February 1
- **Summer Quarter**
  - May 1

Learn more about applying: [www.uwb.edu/admissions/apply](http://www.uwb.edu/admissions/apply)
FINANCIAL AID

The University of Washington Bothell is committed to the idea that a University of Washington degree should be affordable for as many students as possible. All of the financial aid opportunities offered at UW Bothell require that students submit the Free Application for Federal Student Aid (FAFSA) or the Washington Application for State Financial Aid (WASFA) by January 15.

FINANCIAL AID OPPORTUNITIES

• Federal Pell Grants
• Washington State Need Grants
• University of Washington Grants
• Federal Loans
• Federal Work Study

HUSKY PROMISE

The Husky Promise program guarantees full tuition and standard fees will be covered by grant or scholarship support for eligible Washington state students. You will not have to pay back these grants and scholarships. You can also be assured that if tuition increases, the aid you receive will increase as well.

To be eligible for the Husky Promise program, you must:

• Be a Washington state resident
• Meet all eligibility criteria for the Pell Grant or State Need Grant Programs
• Submit the FAFSA or WASFA by January 15

FINANCIAL AID INFORMATION:

To be considered for all financial aid programs, FAFSA/WASFA must be completed by January 15.

▶ More information: uwb.edu/financialaid
▶ Husky Promise: www.washington.edu/huskypromise
▶ Tuition: www.uwb.edu/tuition
▶ Have questions? Email uwbfaid@uw.edu to arrange to speak to a financial aid representative.

Meet

HESBEYDA VILLAFANA

Class of 2020, Educational Studies, American and Ethnic Studies

As a Husky Promise student, Hesbeyda Villafana is on her way to earning a bachelor’s degree in American and Ethnic Studies next year — debt free. But she does feel she still owes something: an obligation to do her best.

In her first year at UW Bothell, Villafana said she “didn’t do that great,” earning a 2.9 GPA. She went home that summer and thought about it. “I was really anxious to come back because I wanted to do better.” The next quarter she raised her GPA above 3.0 — and continued to raise her grades each quarter over the next year until she hit a 4.0.

“Being part of the Husky Promise made me feel like I needed to work hard, because I’m thankful to be part of this and to receive this financial aid. I was so determined to come regardless. I just knew it would work out somehow. Because of the Husky Promise, I am here.”
The University of Washington Bothell, one of three UW campuses, is located in the heart of the Puget Sound region.

Downtown Seattle is approximately 30-45 minutes away by car or bus. The campus is also halfway between the cities of Bellevue and Everett, in what is known as the “tech corridor” given the many international and start-up technology and biomedical companies that make this region their home.

UW Bothell — which shares a campus with Cascadia College — is about a mile from downtown Bothell. The town is known for its historic Main Street, its recreational activities (including biking, hiking and kayaking), and a growing number of restaurants, breweries, coffee shops and boutique stores.

Situated on what was formerly the Boone-Truly Ranch, UW Bothell is home to a 58-acre wetlands, one of the largest and most complex floodplain restorations in Washington state.
