The 2021 Academic Year Annual Report of the Space Utilization and Provision Group (SUPER-G) has been prepared for the Chancellor and Vice Chancellor Planning & Administration of the University of Washington Bothell. The report provides a summary of the evaluations on space utilization, space requests and proposals along with their source of origination and current status.
A. Executive Summary

SUPER-G is charged with strategically evaluating space requests and proposals to align institutional expectations about space utilization, space related projects and funding, which the Chancellor considers in order to make decisions on changes of space use. The group includes a diverse representation of students, faculty and staff and is chaired by Physical Planning & Space Management.

In the sixth year of the Space Utilization and Provision Group (SUPER-G), consideration of forthcoming campus space assignments were fueled by the backfilling of vacated spaces that will follow the new STEM4 facility. In addition, forthcoming office leases with the Husky Village redevelopment will be considered to offset the anticipated reduction of existing leases within Beardslee Crossing. Other considerations on space use are pending changes in instruction following the evolving pandemic as the faculty, staff, and students return to campus in September.

This Report summarizes (1) space provisions that were reviewed within the 2021 academic year, (2) where the endeavors originated from, (3) the review period, and (4) the status of each effort. The table below outlines SUPER-G’s primary efforts.

Dear Colleagues,

Thank you for agreeing to serve on the UW Bothell Space Utilization and Provision Group (SUPER-G) for 2020-2021. SUPER-G will be chaired by David Moehring, Senior Capital Planner with the UW Bothell Physical Planning and Space Management team. I also want to thank David for his continued service and guidance in this work.

SUPER-G is charged with strategically evaluating space requests and proposals to align institutional expectations about space utilization, space related projects and funding. The group will advise the campus, the Vice Chancellors and the Chancellor. Final decisions regarding space use will remain with the Chancellor. Your service is important as we look to critically examine space requests in the coming year, to continue aligning space decisions with the Campus Master Plan Update and Strategic Plan, and help build the campus into the future.

SUPER-G will meet in the following dates - David will be in touch with more details.

- December 1, 2020
- March 2, 2021
- April 27, 2021
- June 1, 2021

Thank you once more for serving UW Bothell in this manner.

Sincerely,

Bjorn Wolf Yeigh, Ph.D., FASME
Chancellor and Professor of Engineering

E. Milestone: Space Guidelines Approved

Space Guidelines define a set of general expectations for efficient use of space and establish a common framework for space discussion. In this academic year, the final document was approved by the Chancellor to update the Physical Planning and Space Management website.
F. SUPER-G Project Recommendation Summary

The three recommendations reviewed through a series of SUPER-G meetings:

1) School of Nursing and Health Studies office suite
2) Student Services Cluster Planning
3) New Chancellor and VC Academic Affairs Suite Relocation to UW1 or UW2

For the School of Nursing and Health Studies office suite, SUPER-G proposed to swap UW1-211A with the existing 211B Meeting Room, adding a door from corridor directly into proposed smaller meeting room UW1-211A (area toned with floor plan above) and thereby allow UW1-211B to be used by the SNHS as a shared office for their added staff.

SUPER-G recommended UW Bothell PP&SM continue planning locations of Student Services Clusters of space accommodations along the Promenade for a proposal within the 2022 academic year (see map right).

SUPER-G also recommended launching an integrated planning effort through the Chancellor’s Executive Team for post-pandemic space use for 2021-22 proposal (i.e., how and what services may change; and the impacts on space use.) A priority would be the new Chancellor and VC Academic Affairs relocation proposal in either UW1 or UW2.

(A2). SUPER-G Looking Ahead to Academic Year 2022

Possible objectives of SUPER-G in the forthcoming year might consider the following:

- Overview and Visioning with the new Chancellor Kristin Esterberg.
- Chancellor and VCAA relocation to UW1 or UW2 suite, including consideration for other Vice Chancellors located in Beardslee Crossing BXC.
- Efficiencies to existing space assignments, including Husky Hall and the Truly House (image right).
- In light of Husky Village Redevelopment and Dining/Bookstore arrangements, study and plan student services clusters along the Promenade.
- Department requests to consolidate Office of Sponsored Research and Office of Connected Learning.
- Vacating other lease spaces at Beardslee Crossing BXA (early lease termination 12/1/2022).
- Update charge letter with SUPER-G appointees from the Chancellor.
- Reassignment of spaces that may be vacated with the completion of the STEM Phase 4 facility in 2023, including transitioning lease space from Beardslee Building.
