GLOBAL SCHOLARS

The Global Scholars Program at UW Bothell provides guidance and support to increase the number of diverse students who engage in global learning experiences. Why? Less than 2 percent of all US students enrolled in higher education participate in study abroad, and participants in study abroad seldom reflect the diversity of college students today. Together with a cohort of peers, Scholars earn academic credit and engage deeply with issues of global citizenship over the course of one year. Students can expect to participate in an internship or study abroad program over summer. The Global Scholars Program is an initiative of the School of Interdisciplinary Arts & Sciences.
