

# Language Learning Study Abroad and Scholarships

## Why study abroad?

Studying abroad expands your understanding of the world and helps you develop usable skills, such as adaptability and intercultural communication, that are in high demand by employers and graduate programs.

*"I have done daily tasks such as opening up a Dutch bank account entirely in the Dutch language. Doing so not only shows courtesy, but it also steps beyond the barriers of being a tourist. I feel that my vocabulary and fluency in the language are improving by the day."*

*-Matt Rice, 2014*

## Can I afford it?

Absolutely! Program fees vary greatly depending on the program, but with good planning an affordable study abroad experience is possible. Most types of financial aid can be applied to the programs offered through the UW and there are specific scholarships for studying foreign languages listed on the back. Be sure to plan ahead! Make an appointment with us and we can help you start your scholarship search, and Study Abroad Advising and the UWB Writing and Communication Center can help polish application essays.

## When can I study abroad?

You can study abroad any time during your college career and we have programs ranging from a couple weeks to a full year, all of which guarantee UW credits. We encourage students to consider studying abroad early in their college career so the opportunity is available to study abroad again if they desire. There may be more flexibility in course scheduling during a student's first couple of years while they complete general area of knowledge requirements. It is important to meet with your academic advisor to make sure your study abroad credits will fit well with your academic schedule. If you love it the first time, you may want to consider an IE3 internship.

## Do I need to know a foreign language?

Not necessarily. While some programs may have foreign language pre-requisites, there are plenty that provide a fantastic way to start learning a new language through introductory language lessons. You will have the opportunity to practice the native language in class and when speaking with locals.

*As I'm preparing to head back to States— to American culture, I'm not worried. From being immersed in this new, Kyrgyz, culture, I feel ready to be back in America. When I get back to States, I feel like I will be more comfortable than ever to be liv-ing in a country where multi-ple different cultures/ideologies exist."*

*-Feruzha Ghias, 2015*
