University of Washington Bothell, School of Nursing and Health Studies

During ____________________ quarter of ________, I am enrolled in more than one course that requires fieldwork hours.

Beyond BHS 496 Fieldwork in Health which requires 40 hours of Fieldwork, I am enrolled in ____________________________________ which require(s) _______ hours of Fieldwork.

I have read and understand the policy related to the counting of Fieldwork hours in multiple courses posted below.

- Requisite Fieldwork hours completed to earn academic credit for BHS 496 cannot be used or counted for Fieldwork (or service learning) hours for another academic course. Nor can Fieldwork hours or service learning completed to earn academic credit for another academic course be used or counted for BHS 496 Fieldwork hours. However, a single agency or organizational setting may be used to complete Fieldwork hours required for multiple courses, including BHS 496, that the student is enrolled in during the same academic quarter.

Delineate, in writing below, how the Fieldwork hours at the agency or organization are separately allocated for each course, how fieldwork activities and responsibilities are separate and distinct for each course and how Fieldwork hours respectively contribute to the student’s learning goals for each course.
