MASTER OF BUSINESS ADMINISTRATION

TECHNOLOGY MBA

Bothell Campus

LEADERSHIP MBA

Eastside Leadership Center (ELC), Bellevue

EVENING PROGRAMS FOR
WORKING PROFESSIONALS

THE UNIVERSITY OF WASHINGTON BOTHELL MASTER OF BUSINESS ADMINISTRATION PROGRAMS

prepare leaders who excel in today's competitive global business environment. Combinations of core courses, experiential learning, and elective credits support students with diverse backgrounds and interests to develop a full spectrum of knowledge and advanced skill set.

OUR STUDENTS POSSESS UNIQUE AND HIGHLY COVETED SKILLS INCLUDING:

- **Business acumen** to solve problems and make solid business decisions
- **Analytical skills**, such as market analysis, web analytics and forecasting
- **Management skills**, such as teamwork, communication and presentation abilities

FLEXIBLE FORMAT

UW Bothell MBA programs are built on a flex-cohort model. Students can earn the degree in as little as 22 months. All students participate in the autumn immersion course that includes a three-day off-campus retreat.

Electives offered evenings and weekends allow students to start the program in spring or summer quarter prior to joining the cohort in the fall.

**Bloomberg
Businessweek
Business Schools**

ATTEND EVENING COHORT CLASSES

Programs are designed to accommodate working professionals, with core classes offered two nights per week. Students move through the core curriculum in unison, building long lasting personal and professional relationships.

Leadership MBA core classes are offered at the Eastside Leadership Center in Bellevue on Tuesday and Thursday evenings from 6 9:30pm.

Technology MBA core classes are offered at the UW Bothell campus on Monday and Wednesday evenings from 6 9:30 p.m.

BUILD ON THE MBA CORE CURRICULUM

Students select 20 credits of elective classes offered on weeknights or weekends. Electives are an opportunity for students to deepen their knowledge of a particular discipline or topic. Potential elective courses include:

- Business Communications
- Management Consulting
- Market Intelligence
- Global Study Tour
- HR Management
- Enterprise IT Management

UW BOTHELL SCHOOL OF BUSINESS IS ACCREDITED by the prestigious Associate to Advanced Collegiate Schools of Business. AACSB accredited schools have better programs, better faculty, better students with higher overall GPAs, more international students, more employers that recruit from them, and graduates that receive better salaries. Fewer than 5% of the world's 13,000 business programs have earned AACSB Accreditation.

CORE CURRICULUM

Leadership, Team Process and Decision Making - Examines factors associated with leader and team effectiveness using high- and low-element exercises and lecture/discussion. Three-day off-campus retreat followed by two evening class meetings on campus.

Statistics for Business - Reviews descriptive statistics, exploratory data, and probability distributions.

Strategic Management - Focuses on major top management decisions, emphasizing how competitive advantage is created and maintained through planning and strategy.

Financial Reporting & Analysis - Read, interpret, and analyze company financial reports. Understand the procedural aspects of the preparation of financial statements. Acquire a working knowledge of generally accepted accounting principles and financial reporting standards. Understand the ambiguities that arise in preparing financial statements and the role of good business judgment in resolving these ambiguities.

Microeconomics for Business - Considers some of the most important economic aspects of a business enterprise including demand and cost analysis, pricing strategy (including auctions), and the economics of information. Highlights the usefulness of game theory.

Financial Management - Provides an introduction to the models used in the investment and financing decisions of a firm. Topics include: valuation of stocks and bonds; measurement of risk and return; project evaluation and analysis; financial leverage and optimal capital structure, and optimal dividend policy.

Marketing Management - Facilitates the development of a customer orientation and explores the use of the marketing mix of product, price, place and promotion to create, communicate and deliver value to targeted customer segments. Explains how marketing strategy is developed, implemented, and controlled in the marketplace.

Leadership and Social Responsibility - Focuses on leadership and managerial effectiveness. Builds upon students' knowledge of factors which influence leadership behavior and the critical personal and interpersonal associated with leadership.

Global Business - Synthesizes and extends perspective on global business environment. Demonstrates how choices related to organization and strategy (such as outsourcing and diversification) require an understanding of trade theory and policy, differences in national cultures, and international institutions.

Operations Management - Examines the operations function in service and manufacturing organizations from a managerial perspective. Key topics include strategic and design decisions relating to operations and processes, quality management, lean systems, inventory control and supply chain management.

Managing Organizational Effectiveness - Explores intangible assets and "meso" issues that underpin organizational effectiveness. Topics include organizational phenomena (cultures, structures, routines, capabilities, life cycles), intellectual capital, and knowledge management (creating, maintaining, and diffusing knowledge). Projects require application of best practices to personally relevant situations.

LEADERSHIP MBA REQUIRED COURSES:

Advanced Leadership Models - Provides an advanced overview of leadership theory and practice and helps students understand and develop their own leadership potential.

Seminar on Global Economic Issues - Analyzes economic structures and trends in nations across the globe and examines their implications for business decision-making. Examines how these economies are influenced by political, legal, regulatory, and technological issues in a global context.

TECHNOLOGY REQUIRED COURSES:

Technology and Innovation Management - Provides a general manager's perspective on the management of innovation. Focuses on conceptual frameworks and analytical tools for managing innovation throughout the firm. Topics include the nature of innovation, how organizational and technical capabilities affect innovation, product/process development systems, and technology implementation.

New Product Marketing - Examines strategies and state-of-the-art analytical methods that support profitable new product introductions.

"My goal is to inspire my students. I expect that they will come out of the program ready to follow their passion and unleash their creativity. I have complete confidence that they will make their organizations, their community, and the world a better place."

■ **SUNDAR BALAKRISHNAN, Ph.D.**, THE WHARTON SCHOOL, PROFESSOR OF MARKETING, FOUNDING FACULTY, UW BOTHELL DISTINGUISHED TEACHING AWARD, 2011
