

B EE 600: Independent Study/Research Agreement

Name:	ID Number:
Quarter:	Number of Credits (1 – 5):
Faculty Study/Research Mentor	Grade (pick only one): Numerical grade () Credit/No Credit ()

***** This section is completed by student *****

Students should thoroughly answer these questions on a separate sheet of paper. Each question should have one or two paragraphs in response, and serve to detail the work expected.

1. Provide a description of the research/study you plan to undertake. Detail this description in such a way that typical people in EE society can understand what you are trying to do. (200-250 word minimum is recommended).
2. What are the research/study questions that you want to answer at the end of the quarter? (200-250 word minimum recommended for item #2).
 - a. What research methods/techniques do you plan to use?
 - b. Please provide a project schedule, including proposed deliverable materials (papers, reports, presentations, others) and their due dates.
 - c. Justification for the requested credits (1 credit = 3 hours of work per week, the content and the deliverable measure up to a five-credits of work).
 - d. What other courses are you taking this quarter?
3. At the conclusion of the quarter, how will you communicate what you have learned from your involvement in this research/study? (For example, written paper, oral presentation, poster presentation, others). (100-150 word minimum recommended).
4. How will conducting this research contribute to your education and/or professional goals? (100-150 word minimum recommended).
