Construction Activities (10.31 – 11.4)
In the first week of November is the start of what should be a very busy month. In building A, we will see the installation of insulation, drywall, windows, and tubs in the units. In the exterior of building A, masonry and sliding will continue on the north elevation. In Building D, the interior staircase will get erected, and framing will slowly start to wrap up. As usual, MEPF will be ongoing in both buildings.

Upcoming Shutdowns
There are no upcoming shutdowns for the week of Oct. 31st.

Progress Photos

This Community Bulletin is intended to serve as an update for upcoming work related to the UWB Student Housing project, as well as a means of notifying our campus community of any significant events that may impact the sidewalks and streets surrounding the project.

If you have any questions about the upcoming work on the UW Bothell campus regarding the new Residential Village Student Housing Redevelopment project, please feel free to contact us and we would be glad to provide any additional information.
