

Prerequisite Courses: *	Grade
<input type="checkbox"/> B CHEM 143/144 General Chemistry 1 (NW)	_____
<input type="checkbox"/> B PHYS 121 Mechanics (NW)	_____
<input type="checkbox"/> B PHYS 122 Electromagnetism & Oscillating Motion (NW)	_____
<input type="checkbox"/> B ME 221 Statics	_____
<input type="checkbox"/> B ME 222 Mechanics of Materials	_____
<input type="checkbox"/> B ME 223 Dynamics	_____
<input type="checkbox"/> STMATH 124 Calculus I (NW, QSR)	_____
<input type="checkbox"/> STMATH 125 Calculus II (NW)	_____
<input type="checkbox"/> STMATH 126 Calculus III (NW)	_____
<input type="checkbox"/> STMATH 324 Multivariable Calculus**	_____
<input type="checkbox"/> STMATH 307 Differential Equations**	_____
<input type="checkbox"/> B WRIT 134 Composition (C) or B WRIT 132 & 133 Composition Stretch I & II	_____

- *A minimum 2.0 is required for all prerequisite courses (a 3.0 or higher is recommended and repeats suggested if more than one prerequisite course is below 3.0).
- ** Course may be in-progress at time of application.

General Education and Areas of Knowledge

Writing Requirement – 15 credits	Natural World (NW) – 15 credits
<input type="checkbox"/> B WRIT 134 Composition or B WRIT 132 & 133	<input type="checkbox"/> STMATH 124 Calculus I
<input type="checkbox"/> B WRIT 135 Research Writing	<input type="checkbox"/> STMATH 125 Calculus II
<input type="checkbox"/> B ME 481 The Citizen Engineer (taken in major)	<input type="checkbox"/> B PHYS 121 Mechanics

Visual, Literary, Performing Arts (VLPA) – 15 credits	Individuals & Societies (I&S) – 15 credits
<input type="checkbox"/> Discovery Core 1+ or Discovery Core 2+	<input type="checkbox"/> Discovery Core 1+ or Discovery Core 2+
<input type="checkbox"/> B ME 315 Intro to 3D Modeling (taken in major)	<input type="checkbox"/> B ME 481 The Citizen Engineer (taken in major)
<input type="checkbox"/> BIS 121 Intro to Drawing – strongly recommended	<input type="checkbox"/> B ME 494 Innovation, Design and Entrepreneurship (taken in major)

***Students with 45 or more credits entering UWB can substitute any VLPA or I&S course instead of Discovery Core.**

Quantitative & Symbolic Reasoning (QSR) – 5 cr	Diversity (DIV) – 3 credits
<input type="checkbox"/> STMATH 124 Calculus I	<input type="checkbox"/> B ME 481 The Citizen Engineer (taken in major)

Applying to Mechanical Engineering

(Subject to change. Please check with your advisor)

Program Information:

BIS 121:

- This course was recommended for students to take because it can help students develop skills that can be used towards BME 315 (Intro to 3D Modeling). This recommended course is not a requirement but does help students develop their skills in free hand sketching, which is a skill that is reinforced in BME 315.

Winter Admission:

- Student who choose to apply for the Winter Admission and are accepted into the ME program will have to take summer classes to stay on track within the program. Please reflect on if you can commit to that expectation.

How to Apply:

- Current UWB students may use the on-line application at the [Mechanical Engineering Admissions web page](#).

Applications are Accepted:

- Autumn quarter: Deadline to apply is TBD (often after spring quarter grades post).
- Winter quarter: Application opens June 1. Deadline to apply is October 1.

Number of prerequisites that can be in progress at the time of application:

- STMATH 307 and STMATH 324 are the only prerequisites that may be in progress at time of application. All prerequisite courses must be completed with a minimum 2.0 GPA prior to starting the program.

Competitive Candidate Information:

- The Math, Science, and Engineering prerequisite GPA average is a 3.5; overall GPA is similar. This is expected to go up for future admission cycles.

Application Recommendations:

- Repeats suggested if more than one prerequisite course is below 3.0.
- Your personal statement should be no longer than 650 words and answer both questions below:
 1. Describe one or two of your core values. Make sure to include an adequate description of experiences that have helped you form and test those values. In addition, please relate your core values to the values, mission, and vision of UW Bothell (www.uwb.edu/about/vision).
 2. Describe why you are interested in earning a mechanical engineering degree both in general and more specifically at UW Bothell (make sure to check out our program website: www.uwb.edu/mechanical). This description should include discussion of (1) any relevant life experiences you may have had (e.g. employment, internships, military service, volunteer work, campus or civic activities, etcetera) and (2) your anticipated career as a mechanical engineer.
