<i>Question</i>	<i>Response</i>	
<i>Question:</i> Program/Service Title	Panic Buttons for ASUWB	
<i>Question:</i> Campus Department	ASUWB	
<i>Question:</i> Contact Person	Maryam Soomro	
<i>Question:</i> E-mail	msoomro@uwb.edu	
<i>Question:</i> Campus Phone	425-352-5225	
<i>Question:</i> Executive Summary of Your Proposal Please provide a concise overview of the program, activity, or service for which you seek funding.	ASUWB would like to request funding from SAF to buy and install panic buttons under each of our desks. The panic buttons will be directly connected to the security office—the security office will be immediately contacted once a button is pressed.	
<i>Question:</i> In 150 words or less, please describe the need for this program or service. Please include any data that might support your proposal (e.g., the number of students who have participated in your service or program in the past). If your program is currently funded by SAF, please indicate how you have used the money to help your organization meet its goals.	Currently, the ASUWB office has no cell phone service, only two office phones, no windows, and only one door (one point of entrance/exit). In the case of an emergency, we are essentially trapped in our office if our door is blocked. ASUWB has an open door policy so we are susceptible to strangers entering our office at any time during our publicly posted office hours. If we are threatened by an intruder we cannot contact security without the intruder knowing—calling security on our office phones. Some ASUWB members may not even be able to call security because not every member has a phone at their desk. If the intruder is blocking access to either/both of our two office phones we will have no way to contact security for help.	

	With a panic button under each of our desks we will be able to discretely and easily contact security for help.
<p><i>Question:</i> How do you plan to assess the program or service?</p>	We plan to work with security and facilities to order and install the panic buttons under the desks of all five ASUWB representatives. We will remain in contact with Ken Jones, Director of Security and Campus Safety who has been working to find us the costs of the buttons and installation.
<p><i>Question:</i> In 150 words or less, estimate how many currently enrolled students will likely benefit from your proposed service or program. Please estimate the number of other individuals (and indicate their affiliation) that might benefite from this service or program. Finally, please indicate other sources of financial support.</p>	Every single student, faculty and staff that comes into the ASUWB office will be safer in case of an emergency. This is will be true for not only this year but years to come. Since ASUWB has an open door, students, faculty, and staff are constantly visiting our office. Currently there are a little fewer than 3,000 students on campus and all students are welcomed into our office.
<p><i>Question:</i> In 150 words or less, please describe the benefits that participants are likely to gain by attending or participating in this program or service.</p>	The benefit of installing the panic buttons would be a safer campus for all students, faculty and staff. By installing the panic buttons there will be enhanced security in our place of work and education for this year as well as years to come.
<p><i>Question:</i> Salary/Wages</p>	<i>No response</i>
<p><i>Question:</i> Benefits *Benefits paid to regular employees working at least .50 FTE should be calculated at 32% of earnings. Benefits paid to hourly employees should be calculated at 11% of earnings.</p>	<i>No response</i>
