SAF Annual Proposal Form for the 2018-2019 Academic Year

The SAF Committee will be accepting applications for the annual budgeting cycle from November 13, 2017 until 5:00pm on January 11, 2018. The intent of the annual operating budget is to support on-going student activities, services, and programs. Services and Activities Fees are defined in RCW 28B.15.041 to mean “fees, other than tuition fees, charged to all students registering at the . . . state universities . . . The legislature also recognizes that Services and Activities Fees are paid by students for the express purpose of funding student activities and programs” of their particular institution. These funds will be available for the 2018 to 2019 academic year.

A member of your group must be available to attend a hearing with the SAF Committee tentatively scheduled for Friday, February 2, 2018 and February 9, 2018. Please include a regularly checked email in the application, as that will be the main form of communication between SAF and the requesting group. The SAF Liaison will contact the requesting group to notify them of a hearing time.

Please ensure that your request is in accordance with SAF Bylaws, which are available at the following website: http://www.uwb.edu/studentaffairs/safc/safbylaws. Please note the SAF Committee will be coordinating with Club Council to develop an efficient funding model.

The Committee will hold an open forum and appeals, tentatively scheduled for on Friday, April 13, 2018. Requesting groups will be notified of a preliminary budget before the open forum and appeals date.

Late applications will not be accepted, except at the discretion of the Committee. Adjustments to the final total requested by any club, group, organization, or department will not be accepted. After a request has been submitted, it may not be reopened for alterations or changes.

The submission window will be open on Monday, November 13, 2017.

Questions? Please contact the SAF Committee, at SAFuwb@gmail.com.

Information to Know Before Submitting Proposals
1. Read Guidelines for Funding/General Criteria for Evaluating Funding Requests before you decide to submit a request (http://www.uwb.edu/studentaffairs/safc/safbylaws).

2. Services and Activities Fees may not be used in support of credit-bearing courses.

3. If you plan on requesting food in your application, please familiarize yourself with the University Food Policy.

4. Please note that the committee cannot fund more than you request (with the exception of benefits associated with salaries or wages, which are set annually by the state and university). If there is a submission error, the committee cannot make any changes and will base their decision on the initial request only. Additional forms/attachments will not be accepted.

Question 8. *

Executive Summary of Your Proposal

Please provide a concise overview of the program, activity, or service for which you seek funding. How does your proposal support the 21C initiatives?

Please reference the University of Washington Bothell's 21st Century Campus Initiatives at the following website and, if and where appropriate, please refer to the applicable initiatives: http://www.uwb.edu/21stcentury

This request is for operations of Recreation & Wellness (R&W), including staff salaries, professional development, student wages, supplies, photocopying, telecommunications, Sports & Recreation Complex maintenance and other general Recreation & Wellness programming/events funding. This is to be in addition and in support of the programming budgets from Recreation & Wellness areas.
Recreation & Wellness supports UW Bothell’s 21st Century Initiative in many ways:

- **Growth** – Recreation & Wellness has grown along with the University of Washington Bothell to continue to provide top notch programs, informed through student interest.

- **Resourcefulness** – R&W has been resourceful by being creative with funding we are awarded to make the biggest impact, though partnering with other departments, growing sustainably, seeking outside support through grants, and building and maintaining relationships with community associates.

- **Diversity** – Through striving to be as inclusive as we know how and by not being complacent. We attend social justice institutes, attend on-campus opportunities, make ourselves available to students, and listen and act based on current student needs.

- **Student-Centered** – R&W keeps students at the forefront of all programming and planning through having students generate event ideas, asking for student input, and by being responsive to student requests and comments.

- **Community** – Our programs are often specifically designed for community building between students, staff and faculty, as well as the larger community. We value our community partners and regularly partner for programming.

- **Innovation** – Our programs are innovative in nature for many reasons. Because we are a co-located campus, we have had to be innovative thinkers and problem solvers to create programs that work on our campus, with its very specific needs and to serve our very diverse campus.

- **Sustainability** – Growth of Recreation & Wellness has had to happen in a sustainable and deliberate way to ensure high quality programming and to allow for our programs to be informed by students. R&W also is very mindful of environmental sustainability and addresses it through educational programming and by creating new programs from left over materials, as to not have to throw them out.

**Question 9.**

Need for this Program/Service

In 200 words or less, please do the following:

- Describe the need for this program or service. Explicitly describe how does this program directly and indirectly benefit our community campus?
- If possible, include any data that might support your proposal (i.e. surveys indicating a need for your initiative).
- If you have tracked the success of this program or service in the past, please provide that information here.
When creating new programs, we keep student jobs in mind do our best to create positions from student fee money. Recreation & Wellness has seen tremendous growth that has coincided with the University of Washington Bothell’s student population growth.

- **Health Promotion**
  This year, students surveyed wanted more programming around cultural diversity and health, stress/anxiety, nutrition, school/work balance, access to wellness opportunities, and sleeping habits. Health Promotion is working to address those needs with programs including sleep packs, seasonal effectiveness disorder education, safer sex information and supplies, and much more!

- **Intramural Activities**
  In 2016-17, Intramurals had 1200 participants and more than 4000 participations in activities including flag football, soccer, ultimate, softball, basketball, sand volleyball, video game tourneys, and gaga ball.

- **Fitness Classes/Fitness Center**
  The fitness classes and Fitness Center are predominately funded through the ARC fees, but are supported by Recreation & Wellness through scheduling fitness classes and supporting the student staff at the desk. We keep hourly head counts, class counts, and continually have a place for students to give feedback on the center and classes.

- **Outdoor Wellness**
  Our outdoor gear shop, The Nest, had over 200 individual equipment rentals in just two quarters of operation. Many of those rentals had over 20 items included in one rental. Our gear was used to outfit students travelling on international studies to Peru and Ecuador. One group of student activists used our tents and cold-weather gear to participate in the Dakota Access Pipeline protests. Throughout 2016-17, Outdoor Wellness served 1500 students in programs alone.

**Question 10. * **

New Request or Previously Funded

Has this request been funded in the past? If yes, please indicate what part of the proposal was previously funded by SAF and what is a request for new allocations.

Yes. All of this proposal has been previously funded.

**Question 11. * **

Estimate number of students that will benefit from your proposed program/service.

In 200 words or less, please do the following:
Indicate the benefits of your proposed program for students.

Estimate how many currently enrolled students will likely benefit from your proposed service or program.

Estimate the number of any other individuals (and indicate their affiliation) that might benefit from this service or program.

The entire UW Bothell community has the ability benefit from our programs. We strive to promote the maintenance of good physical and mental health for all students and we want to create an atmosphere that encourages individuals to develop a life-long pattern of positive physical activity, regardless of skill level.

Our programs are open to all students and we endeavor to address issues from a holistic and inclusive angle. Because Recreation & Wellness is focused on excelling and developing the areas we currently have, one of our major goals for this past year was to increase participation from students who wouldn’t typically identify themselves as someone who would join us. We’ve seen great of this through creative programming and increasing accessibility.

Question 12. *

How do you plan to assess the program or service?

How do you plan to track the effects of this program or service?

For example, how would you track how the event/program/service went? How would you track how successful it was and what you could change in the future?

R&W tracks the effects of programs in a number of ways. We keep head counts at events, assess participants to see if our learning outcomes are being reached, we talk to student participants and ask what they like, don’t like, what we’re missing, and what they would change. Success can be measured in many ways, and we take different approaches for different programs. After events, we fill out Program Report Forms that ask questions about what went well, what could have been better, how many people attended, and any other general information that is pertinent to the event. When we do events in the future, we will go back to this collected information for use to build on the foundation we’ve put in place and to continue to do better for students.

Recreation & Wellness programs allow students to attend to all five areas of their physical, emotional, spiritual, social, and intellectual needs. Research indicates that “student involvement in recreational sports programs, facilities, and (wellness) services plays a significant role in recruiting new students, supporting the learning environment, integrating students into the social community of the campus…enhanced recruitment and retention of students; higher grade point averages; greater student satisfaction with their overall college experience."
