The Activities and Recreation Center is seeking funding for 50% for one Fitness Center information student position in the Activities and Recreation Center (ARC). Within this request the ARC assumes that operations will go back to full time to support campus post covid. This student position is essential with keeping the fitness center operating for the student population to use at both UWB and Cascadia campus. We ask for this funding to allow the ARC to continue their commitment to safety and access control in this high-risk area. Having a student stationed at our fitness center information desk not only provides supervision with risk but will also provide customer service, along with commitment to access control to ensure fee paying students and membership purchasing faculty and staff are the only individuals accessing the space.

The ARC is a place where students are able to take a break from their lives and go to a place where they can relax, unwind in any way they chose. From the fitness center to our gaming alcove or to our 2nd floor Over look, the ARC serves as a place for students to find community, engagement and peace. In particular the fitness center is an active location on campus where students are able to physically move and work on their physical and mental health. The fitness center information desk in particular is a support area for students to utilize when they need additional fitness equipment for the outdoor sports complex as well as serving as an information hub. This area also services as a check in point to ensure students are not walking in to the fitness center space without having proper access. Lastly, as we cannot predict what life will be like post covid. The fitness center information desk can serve as an attestation check in location. Because the intention is to move the information desk to the lower level lobby, the new work station allows the ARC to create a one-way entrance and exit. Students at this desk will be trained on proper physical distance protocols to ensure students in the space are staying safe and healthy. Because this desk will be the first interaction students will have with the area, students will be trained on policies and procedures to ensure students upon entering are set up for success.

Q9. Is this a new request?
(Partial means that one or more-line items of the submission is new but not necessarily the program or submission itself. Select No if the request is not new but was previously submitted under a different name; i.e., Student Assistants have a title change to Student Associates.)

- Yes
- No
- Partial

Q10. What on your request is new or has changed?
During the 2020-2021 SAF proposal that ARC asked for 100% funding for one of the two student positions within the ARC fitness center. This year the ARC is submitting two separate, 50% requests, one for the Fitness Center information desk and one for the Fitness Center Attendant, new position.

Q11. Strategic Plan
- How would you like to see this program grow/change/adapt, and what role does funding play into this vision? Please describe some key goals you are hoping to accomplish, now and in the future. (1000 character limit, approx. 150 words or less)

The ARC will continue to move forward with our goal of being a welcoming and inclusive space for students. As campus grows, we at the ARC would like to be able to see the fitness center be utilized to its full capacity. In the future we would like to expand the building hours and be able to support more programming for the ARC and Outdoor Sports Complex. Funding for this position plays a key role, without it we would not be able to fully function as a supportive and safe space for our student population.

Q12. Assessment
- Estimate how many currently enrolled students will likely benefit from your proposed service or program. If you have previous statistics from past programs, please feel free to include for comparison.
- What is the impact of your program and how do you measure the affects?
- If a new program, describe how you plan to assess the proposed service/program. Describe any metrics or operational targets your unit uses to assess its financial and operational health.
- (Supporting documents or materials are not required but may be presented in the hearing if desired.)

(1600 character limit, approx. 250 words or less)

The Activities and Recreation Center is a dual institutional building that serves students from both Cascadia College and University of Washington Bothell, which totals to about 9,000 students on campus. Based on the data from 2019-2020* academic year there were roughly 24,000 visits into the fitness center. Because 2019-2020 was cut short due to covid, the visits only reflect the full Fall and Winter quarter. Based on the trends the ARC was on track to exceed 30,000 visits, more then 2018-2019. The fitness center provides a place for students to visit and stay physically and mentally healthy. Studies have shown that physical fitness has many benefits for the mental and physical body such as increase of focus, concentration and stress relief. Outside of students using the space, we anticipate that faculty and staff will also benefit from purchasing memberships. During the 2019-2020* academic year we have about 300 faculty and staff from either institution check into the arc. Because of the academic year being cut short the number is lower then the years past.

Q13. Funding Categories
For these responses, please do not show the math on this proposal. Use the excel sheet for the actual math. Instead, in these sections, tell SAF about the category funding needed and provide the 'why' for the request. There is no character amount but you are asked to be concise in your response.

Q16. Salary Positions
Please briefly describe the positions you are requesting funding for. If there are differences or distinctions in positions, please explain what they are and do.
The ARC is requesting funding for 50% of student salary positions needed to operate the Fitness Center Information Desk. Funding for salary is based on building hours for the 2021-2022 academic year, with anticipation campus returns to full operating capacity post covid. Salaries also take into consideration student staff training for four full time (19 hours/week) students which includes training, CPR certifications, departmental in services and student manage one-on-one meetings per quarter. The students in this position are in-charge of three main categories: access control, customer service and supporting the outdoor sports complex for equipment rental and inquiry.
