## **Project Title**

UWB Students Only circulating laptops – 72-hour loan

## **Brief Project Overview**

The Library has a current agreement to circulate 15 laptops for the exclusive use of the Associated Students of UWB on a 72-hour check-out basis. Of the original 15 laptops, only 12 are still circulating because three have been lost\*\* or destroyed. The remaining laptops are over three years old, out of warranty, and spending more and more time out of circulation for repair. The wear and tear associated with over three years of circulating has manifest itself during the last 10 months in the form of hard to read screens, unresponsive keyboards, lost internet connections, and very short battery life on all of these machines. Additionally, the physical wear on them has resulted in batteries that fall out, broken Ethernet ports that won't stay connected, and fractured wires on AC adaptors presenting a shock hazard and failing to charge the battery or power the laptop. The Library has done what it could to replace or repair these parts after the warranty period, but since these laptops are the most commonly circulated, their current rate of deterioration will most likely take more of them permanently out of circulation. Replacing these laptops would provide the ASUWB with faster, longer lasting, more reliable laptops that can be used for projects, homework, and research to help students complete their degree programs.
