GRANT ACTIVITIES AND AWARDS

Davis, C., Fleming, R., & Cavanaugh, D.L. (2022). Collaborations in School Behavioral Health: Professional Development in Schools for Educators. Federal earmark grant through the Department of Education to support the development of public-school educator mental health knowledge development. Awarded \$750,000.

Fleming, R. (2001-2003). Received \$40,000 in grant funding from Associates in Supervision and Curriculum Development to create, implement, administer, and evaluate a public health education and career pathway program for middle and high school immigrant students in Seattle Public Schools.

Fleming, R. (2011). Received funding from the Franklin High School Alumni Association and in-kind contributions from Planned Parenthood and Youth Suicide and Prevention Program to develop a peer health education program for low-income students.

Fleming, R. (2013). Received funding from the Centers for Disease Control and Prevention to explore development of the Washington Initiative for Student Health, an entity that would provide education and advocacy to promote and support nursing and health services in schools.
