Motorist Assistance

POLICY

The Campus Safety Department will provide limited mechanical assistance to staff, students and faculty on the UWB/CC campus.

PROCEDURE(S)

The Campus Safety Department will not do vehicle unlocks (breaking into vehicles) upon request. The potential to damage a vehicle's lock poses too great of a liability. If students, staff or faculty members lock themselves out of their vehicle, Campus Safety will give them the number to a towing company and allow them to use their phone.

The only exception to this unlock policy is if a child or animal is locked in a vehicle and the welfare of that child or animal is in jeopardy. In that case, Campus Safety will use a "slim Jim" tool to gain entry to the driver's side door (whenever possible) of a vehicle.

The Campus Safety will perform battery "jumps" on vehicles that have become inoperable if the driver signs a release of liability. Campus Safety Officers will stay with the person and provide protection until they receive the assistance they need.

ADDITIONAL INFORMATION

For additional information, please contact Campus Safety.
