Murray with recommendation and concurrence reports provided through Gowri Shankar, UW Bothell's Vice Chancellor of Planning & Administration, and Meagan Walker, Cascadia College's Vice President of External Relations & Planning. In its seventh year as evolved from the Institutional Project Review Process of the Campus Master Plan, the CDRT completed the site recommendation for a permanent exterior pavilion in the UW Bothell plaza near the entrance of Founders Hall UW1. We will proceed with the preparation and review of the design for the pavilion adjacent to the library building and bring that design back to the CDRT for Master Plan compliance and approvals.

The CDRT will report to and advise the President of Cascadia College and the Chancellor of UW Bothell regarding project plans that have a temporary or permanent visual and/or functional impact on the campus exterior and surrounding community setting, including historic resources.

The primary purpose of CDRT is to maximize the functionality and desirable experiential qualities of the campus and its facilities; and to encourage creativity, celebrate artistic expression, and enhance the visual landscape and context. Your service is important as we look to strategically align new opportunities with the Campus Master Plan and help plan a cohesive campus into the future.

The executive team's role is to:

- Identify which project plans warrant the full team's review;
- Participate in review of DES- or PDG-led campus designs for master plan concurrence; and
- Secure the approvals and consensus of UWB Chancellor and Cascadia College President.

The full Campus Design Review Team's role is to:

- Provide concurrence of project conformance to the Campus Master Plan as requested for the Chancellor and President;
- Review smaller project plans for responsiveness to master plan design principles; and
- Review artwork proposed for exterior and shared interior common spaces to be in harmony with the Campus Master Plan and our history.
