Dear Colleagues,

Thank you for serving on the Cascadia College | University of Washington Bothell Campus Design Review Team (CDRT) for the 2024-25 academic year.

The CDRT will report to and advise the President of Cascadia College and the Chancellor of UW Bothell regarding project plans that have a temporary or permanent visual and/or functional impact on the campus exterior and surrounding community setting, including historic resources.

The primary purpose of CDRT is to maximize the functionality and desirable experiential qualities of the campus and its facilities; and to encourage creativity, celebrate artistic expression, and enhance the visual landscape and context. Your service is important as we look to strategically align new opportunities with the Campus Master Plan and help plan a cohesive campus into the future.

The executive team's role is to:

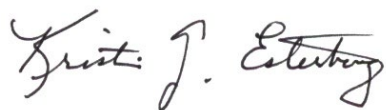

- Identify which project plans warrant the full team's review;
- Participate in review of DES- or PDG-led campus designs for master plan concurrence; and
- Secure the approvals and consensus of the Cascadia College President and UW Bothell Chancellor.

The full Campus Design Review Team's role is to:

- Provide concurrence of project conformance to the Campus Master Plan as requested for the Cascadia College President and the UW Bothell Chancellor;
- Review smaller project plans for responsiveness to master plan design principles; and
- Review artwork proposed for exterior spaces to be in harmony with the Campus Master Plan and our history.

Thank you for accepting this important responsibility while enriching our diverse campus environment.

Sincerely,

Kristin G. Esterberg, Ph.D.  
Chancellor and Professor  
University of Washington Bothell

Eric W. Murray, Ph.D.  
President  
Cascadia College
