What is Community-Based Learning and Research (CBLR)?

CBLR courses are hands-on, reflective, skill-building opportunities for students to engage with campus and community projects. Join the following learning communities this Spring!

Health and Wellness CBLR Learning Community

**BCUSP 199 Field Based Learning – Section B**

2 Credits (C/NC)/ 50% Hybrid/
Every other Friday 1:15 - 3:15pm

Instructors: Sukhaman Kaur, School of Nursing and Health Studies
Monique Taylor, School of Interdisciplinary Arts and Sciences

SLN: 21346

Students will engage in established volunteer projects with a community organization and collaborative class activities that focus on how different health and wellness fields address needs in society.

Environment and Sustainability CBLR Learning Community

**BCUSP 199 Field Based Learning – Section C**

2 Credits (C/NC)/ 50% Hybrid/
Every other Friday 1:15 - 3:15pm

Instructors: Lily Cason, Environmental Education and Research Center @ St. Edward State Park
Layla Taylor, Office of CBLR

SLN: 21347

Students will engage in established volunteer projects with a community organization and collaborative class activities that focus on how different environmental science fields address needs in society.
